ZETAKIN DRY-O NEW

ZETAKIN DRY-O NEW is an innovative process born from ZAITEX research for the optimization of production processes, with a view to saving energy and reducing environmental impact.

In combination with the action of ozone, **ZETAKIN DRY-O NEW** is capable of emphasize the washing effect on **denim garments** while keeping the **original blue cast**. In the case of **dyed garments**, it allows to obtain a **real vintage effect**.

ZETAKIN DRY-O NEW can be considered a viable alternative to permanganate potassium or sodium hypochlorite. Thanks to its application method, it guarantees consistent production results.
